# INDEX

# RUBBER CHEMISTRY AND TECHNOLOGY VOLUME XXXII, 1959

## AUTHOR INDEX

Page

ALEKSEENKO, V. I., BOGOSLAVSKAYA, L. A., AND MISHUSTIN, I. U. Compatibility in adhesion ..... 519
ALLEN, P. W. Natural rubber latex, swelling of ..... 809
ALTIER, M. W., see Morton, M.
ANTHONY, R. L., see Hewitt, F. G.
ARZHAKOV, S. A., see Igonin, L. A.

BABITSKII, B. L., see Levitan, I. A.
BACHMANN, J. H., SELLERS, J. W., WAGNER, M. P., AND WOLF, R. F. Reinforcing silicas and silicates ..... 1286
BAKHANEV, B. J., see Blokh, G. A.
BAMFORD, C. H., AND OTHERS. Book, "Kinetics of Vinyl Polymerization by Radical Mechanisms" ..... 2nd issue, ix
BARB, W. G., see Bamford, C. H.
BARKOVA, L. V., see Kuzminskii, A. S.
BARTHOLOMEW, E. R., EYKAMP, G. R., AND GIBBS, W. E. High temperature elastomeric compounds and polymers ..... 1587
BASHKATOV, T. V., see Shotalov, V. P.
BATTISTA, O. A. Book, "Fundamentals of High Polymers" ..... 3rd issue, x
BELONOVSKAYA, G. P., see Dolgoplosk, B. A.
BENISKA, J., AND DOGADKIN, B. A. Activators (ZnO) of vulcanization, effect on structure ..... 774, 780
BERESTNEV, V. A., see Gul, V. E.
BERNSTEN, E. R., see Erickson, E. R.
BEVILACQUA, E. M. Vulcanization with TMTD ..... 1675, 721
BLOKH, G. A. Carbon black and sulfur, vulcanization, radiosulfur ..... 118
———, KORMILZEVA, Z. P., BOGUSLAVSKII, D. B., BAKHAVEV, B. I., TIKHOMIROV, B. P. Diffusion during vulcanization of tire stocks ..... 770
BLOKH, G. A., AND MALNEV, A. F. Infrared spectra of cured and uncured rubbers ..... 628
BOGOSLAVSKAYA, V. I., see Alekseenko, V. I.
BOGUSLAVSKII, D. B., see Blokh, G. A.
BONNAR, R. U. Book, "Number Average Molecular Weights" ..... 2nd issue, x
BOONSTRA, B. B. S. T., AND DANNENBERG, E. M. Swelling of filled rubbers ..... 825
BOVEY, F. A. Book, "Polymer Reviews. Effects of Ionizing Radiation on High Polymers" ..... 1st issue, xii
BRUNELLE, M. F., see Haagen-Smit, A. J.
BUCKLEY, D. J. Elastomeric properties of butyl rubber ..... 1475
———. Ozone attack, butyl ..... 257
BUECHE, F. Tensile strength of elastomers ..... 1269
———. Molecular weight, absolute method ..... 97, 99
———. Tensile strength of filled SBR ..... 680
BULGIN, D., AND HUBBARD, G. D. Rotary power loss machine ..... 915
BURGER, V. L. Analysis of rubber ..... 1452

CHAMBERS, V. S., see Howland, L. H.
CHERNYKH, Z. V., AND EPSHTEIN. Effect of types of black and rubber on gel formation ..... 1185
CHERTKOVO, V. F., see Kuzminskii, A. S.

Page

CHULINKOVA, T. A., see Shatalov, V. P.
CLAXTON, W. E. Stress-strain equation ..... 394
COLLINS, R. L., see Kraus, G.
COOPER, D. H. Side force and slip of tires in cornering ..... 490
COUCH, W. H., HUNT, G. H., AND PRATT, O. S. Ozone aging ..... 1104
COX, W. L. Antiozonants ..... 364

DANNALS, L. E., see Howland, L. H.
DANNENBERG, E. M., see Boonstra, B. B. S. T.
DANNIS, M. L. Expansion first order and second order transition temperatures ..... 1005
DEMIDOVA, G. I., see Yakubchik, A. I.
DERYAGIN, B. V., see Medvedeva, A. M.
DESSEWFLY, O., SCHAY, G., AND SZÖR, P. Stress-strain in compression ..... 420
DIMBAT, M., see Bonnar, R. U.
DOBROMYSLOVA, A., see Dogadkin, B. A.
DOGADKIN, B. A. Oxidation, heating and milling, effect of MBT ..... 184
———. Vulcanization, accelerators ..... 174
———, TARASOVA, Z. N., KAPLUNOV, M. IA., KARPOV, V. L., AND KLAUZEN, N. A. Radiation vulcanization ..... 785
———, PECHKOVSKAYA, K., AND GOLDMAN, E. Polybutadiene filled with colloidal silica ..... 639
———, see Feldshtein, M. S.; see Beniska, J.; see Gul, V. E.
———, FELDSHTEIN, M. S., EITINGTON, I. I., AND PEVZNER, D. M. Disulfides (heterocyclic) as vulcanization agents and accelerators ..... 976
DOLGOPLOSK, B. A. Redox systems, mechanism of action, radical processes ..... 244
DOLGOPLOSK, B. A. Carboxylic rubbers, synthesis and properties ..... 321, 328
———, KROPACHEVA, E. N., AND NELSON, K. V. *cis, trans* Isomerization of natural rubber with organo-aluminum compounds and $TiCl_4$ ..... 1036
———, see Tinyakova, E. I.
DOSTYAN, M. S., see Uzina, R. V.
DUNN, J. R., AND SCANLAN, J. Aging, effect of dithiocarbamates ..... 739

EDELMANN, K., AND HORN, EDITH. Rheology of rubber latex ..... 1050
———, AND KOLBE, G. Rheology of rubber and rubber solutions ..... 1039
EITINGTON, I. I., see Dogadkin, B. A.; see Feldshtein, M. S.
ENGLAND, W. D., KRIMIAN, J. A., AND HEINRICH, R. H. Elastomer weather aging on military vehicles ..... 1143
EPSHTEIN, V. G. Carbon black structure and tear resistance ..... 1180
———, see Chernykh, Z. V.
ERICKSON, E. R., BERNTSEN, R. A., HILL, E. L., AND KUSY, P. Ozone reaction with SBR ..... 1062
ESSER, HEINZ. Vulcanization with bisazo compounds. Aging ..... 544
EYKAMP, G. R., see Bartholomew, E. R.

# SUBJECT INDEX

Abrasion, against wire gauze ..... 471
  Against abrasive paper ..... 1199
Accelerators, mechanism of action ..... 174, 184, 976
  Analysis for sulfur ..... 123
  Polarographic analysis ..... 1254
  Effect on ozone attack ..... 364
  See under specific names, e.g., MBT
  See analysis of rubber
Activators of accelerators of vulcanization ..... 150, 164
Adhesion ..... 67, 503, 870, 1192
  Compatibility and ..... 519
  High pressure and ..... 527
Adhesive, for cord to rubber ..... 870
Aging, accelerated and natural, correlation ..... 1134, 1117, 1104, 1088, 674
  Effect of dithiocarbamates ..... 739
  Weather ..... 1142
  See ozone attack, antiozonants, waxes, etc.
Amines, sulfur and olefins ..... 577
  As antioxidants ..... 844
Analysis of rubber, review ..... 1452
Antioxidants ..... 1164, 844
  Determination ..... 844
  Dithiocarbamates as ..... 739
  Effect of carbon black on ..... 1164, 1171
  Polarographic analysis ..... 1254
  See analysis of rubber
Antiozonants ..... 364, 1155, 1117, 1104, 1062, 1080, 1088
ASTM, 1958 Standards, Part 9: Plastics. Insulation, Rubber, Carbon Black. Book ..... 3rd issue, x
  See ozone on rubber
Autohesion ..... 527

Binary solvents, swelling in ..... 77
Bond strength ..... 1192, 503
  Heat treatment ..... 513
  Compatibility ..... 519
Bound rubber ..... 1185, 825
Butadiene rubber
  Activators for vulcanization ..... 164
  Mixing with natural rubber ..... 308
  *cis, trans*, Vinyl groups in ..... 614
  See polybutadiene
Butyl, photovulcanization ..... 557
  Atomic oxygen in corona attack ..... 1104
  Review ..... 1475

Carbon black, ASTM standards. Book ..... 3rd issue, x
Carbon black ..... 118
  Interaction with sulfur ..... 118
  Bound rubber (gel) ..... 1185
  Effect on ozone attack ..... 364
  Effect on thermal antioxidants ..... 1164, 1171
  Effect on tear ..... 1180
Coagulation of latex ..... 531
  See reviews of natural rubber latex
Compatibility ..... 519
  And *cis-trans* ratio in Nairit (neoprene) ..... 519
  Of many polymers and bond strength ..... 519
Carboxylic rubbers, synthesis and properties ..... 321, 328
Compression ..... 1
Conductivity, heat ..... 444
Cord to rubber bond strength ..... 870, 898
  See bond strength
Cord, strain gages and study of
  At high elongation rates ..... 907
Cornering effects on tires ..... 490
Corona attack of various polymers, effect of $O_3$ and O ..... 1104
Cracking, ozone ..... 278
  See ozone attack, weathering, waxes, antiozonants, etc.
Creep rate and ozone attack ..... 346
Crosslink density, in polybutadiene ..... 696, 706
  Use of radioactive sulfur in transfer agents and ..... 706
Crosslink redistribution ..... 696
Crystallizing and melting ..... 463
  Review ..... 1392
Cut growth ..... 477

Deformation
  Adiabatic ..... 1016
  Cyclic ..... 1209, 1020
Degradation. See oxidation-reduction, redox, etc.
  For identification by, and infrared spectrum ..... 854
  Oxidative ..... 759
  Thermal ..... 748
Dielectric spectrum and stretching ..... 1027
Diffusion and sulfur vulcanization ..... 770
Dilation of volume on extension ..... 428
Dithiocarbamates
  Effect on aging ..... 739
*N,N'*-Dithiodimorpholine as accelerator and vulcanizing agent ..... 976
*N,N'*-Dithiodipiperidine as accelerator and vulcanizing agent ..... 976
Double bonds, internal and external
  Reaction with $O_3$ ..... 284
Dynamic cut growth ..... 479
  Fatigue ..... 1209, 454
  Properties and vulcanization ..... 662
  Properties and molecular weight ..... 651

Elastomers. See specific polymers
  Analysis, review ..... 1452
  High temperature, review ..... 1587
  Tensile strength, review ..... 1269
  Crystallinity, review ..... 1392
  Butyl, review ..... 1475
  Latex, reviews ..... 1627, 1660
Electron spin resonance of carbon black ..... 107
Elongation and ozone attack ..... 278
Elongation ..... 40
  See cracking and dielectric spectrum ..... 1027
Expansion, thermal ..... 1005
Extension and change in volume ..... 428
  See elongation

Fatigue ..... 454
Fillers, see reinforcement
  Silica and silicates review ..... 1286
Fracture, high speed ..... 13
Free radicals and reinforcement ..... 107
Friction ..... 490

Gel, structure ..... 536
  Globulization and ..... 539
  Nonsolvents and ..... 539
Globulization with nonsolvents ..... 539

Page

Glasslike region behavior ..... 1005, 434
Glass temperature ..... 1005
Graft polymerization, styrene with rubber ..... 1243
  Methyl methacrylate with rubber ..... 799, 809

Hard rubber vulcanizates ..... 194
Heat conductivity ..... 444
Heat treatment and strength of pliedup layers 513
High polymers. Book ..... 3rd issue, x
High speed fracture ..... 13

Infrared spectra
  Of cured and uncured rubber ..... 628, 854
  Of *cis* and *trans*-polyisoprene ..... 718
Insulation. ASTM standards. Book 2nd issue, x
Interaction of polymers ..... 87, 308
Intermolecular action ..... 454
  In rubber solutions ..... 668
Irradiation of rubber-styrene mixtures ..... 1243
Isocyanates and derivatives, review ..... 337
Isomerization, *cis-trans* ..... 718
  With polymerization initiators ..... 1036

*Kauchuk i Rezina.* Journal ..... 3rd issue, xiii
Kinetics
  Cut growth ..... 692, 477
  See vulcanization, aging, etc.
  Rate of solution of toluene in latex ..... 819
  Thermal vulcanization ..... 962
Kinetics of Vinyl polymerization by radical mechanisms. Book ..... 2nd issue, ix
Kunstoff, see Plastics

Latex
  Coagulation ..... 531
  Swelling of particles ..... 814
  Methyl methacrylate and ..... 799, 809
  Toluene and ..... 814
  Reviews ..... 1627, 1660
Light scattering ..... 463
Literature of rubber. Book ..... 1st issue, xiii
Los Angeles, ozone attack in ..... 1134

Mechanical behavior in rubberlike, transition, and glasslike regions ..... 434
  Properties ..... 1209
Melting and crystallizing ..... 463, 1005
  Review ..... 1392
Mercaptobenzothiazole, effect on milling ..... 184
  Derivatives ..... 983
Metal oxides in vulcanization ..... 150
Methyl iodide, vulcanizates and sulfides, reaction with, kinetics ..... 208
Methyl methacrylate and natural rubber latex effect of particle size ..... 809
Milling, effect of MBT on ..... 184
Mixing, scorching and physical properties ..... 294
Modulus, dynamic, and power loss ..... 920
Molding pressure, temperature and time and bond strength ..... 503, 513
Molecular properties and tack ..... 48
Molecular weight. Book ..... 2nd issue, x
Molecular weight, absolute method ..... 97, 99, 1039, 1050
  And dynamic properties ..... 651, 662
Mountings ..... 1209

Natural rubber, polymerization in ..... 799
  Oxidative degradation ..... 759
  Aging in presence of dithiocarbamates ..... 739
  Dynamic modulus ..... 662
  Analysis for sulfur groups in ..... 941
  Melting and freezing ..... 1005
  Cyclic deformation ..... 1020
  Isomerization ..... 718, 1036
  Molecular weight ..... 1039, 1050
  From individual trees ..... 1228
  See graft polymerization
Neoprene, crystallizing and melting ..... 463
  Sulfur reaction in polymerization ..... 588
  Thiuram reaction ..... 588
  Degradation of ..... 588
  Crosslinking of ..... 588
  Ozone resistance of ..... 1117

Page

Nitrile rubber vulcanization ..... 128
  Degradation ..... 748
  Dynamic modulus ..... 662
  Thermal vulcanization ..... 962
Number-average molecular weights. Book ..... 2nd issue, x

Oil extension of SBR ..... 701
Oxidation, effect of MBT on ..... 184
  Polybutadiene ozonide-reduction systems, mechanism of action, degradation ..... 220, 231
  See redox, radicals, etc.
Ozone, analysis for ..... 346
  Atmosphere, controlled ..... 346, 1117
Ozone attack and ozonides ..... 257, 269, 278, 284, 288, 1155, 1143, 1134, 1117, 1104, 1062, 1080, 1088
  Rate of ..... 346, 1062, 1080, 1155, 1143, 1134, 1117, 1088, 1104
Ozone on Rubber, Effect of. Book. ASTM Special Techn. Publ. No. 229 ..... 1st issue, xii
Ozonide of polybutadiene ..... 288

Plasticizers ..... 536
Plastics. Book ..... 3rd issue, xii
Plastics, rubber modified. Book ..... 3rd issue, xii
Plastics, lacquer and rubber analysis. Book ..... 3rd issue, x
Polybutadiene, photovulcanization ..... 557
  Thermal degradation ..... 748
  Crosslink density in ..... 706
Polybutadiene, *cis, trans*, vinyl, ..... 614
  Filled with $SiO_2$ ..... 639
  Melting and freezing ..... 1005
  Thermoelasticity ..... 1016
  Vulcanization ..... 164
Polychloroprene, see neoprene
Polyisoprene, isomerization ..... 1036
  Melting and freezing ..... 1005
  See natural rubber
Polymerization, see graft
  Initiators of, as agents of isomerization ..... 1036
  See neoprene, isoprene, Ziegler, etc. ..... 597
Polymer, autohesion ..... 527
  Solvent interaction ..... 536, 539
Polyurethanes, review ..... 337
Power loss ..... 920

Radiation, Effects of, on materials. Book ..... 2nd issue, xi
Radiation vulcanization ..... 785
Radicals ..... 220, 231
Radioactive transfer agents in crosslinking ..... 706
Rate. See Kinetics, strain
Redox systems, mechanism, in radical processes, etc. ..... 244
Reinforcement ..... 118
  Electron spin resonance of C black ..... 107
  Free radicals ..... 107
  $SiO_2$ ..... 639
  Swelling ..... 825
  Tensile strength
  Dynamic properties ..... 651, 662
  Silica and silicates review ..... 1286
Resilience and power loss ..... 920
Reviews, Polymer. Book ..... 1st issue, xii
Rheology of rubber ..... 1039, 1050
Rubber. Book ..... 3rd issue, xii
Rubber analysis. Book ..... 3rd issue, xi
Rubber see elastomer and other specific subjects
Rubber chemicals, polarographic determination ..... 1254
Rubber modified plastics. Book ..... 3rd issue, xii
Rupture ..... 477

SBR, latex coagulation ..... 531
  Swollen ..... 536
  Plasticizers and ..... 536
  Degradation ..... 748
  Oil extended ..... 701
  Tensile strength ..... 680
  Dynamic properties ..... 651, 662
